

DEPARTMENT OF THE TREASURY
WASHINGTON, D.C.

September 10, 2018

Mr. Robby Miller
Parish President
Tangipahoa Parish
P.O. Box 215
Amite, LA 70422

Dear Mr. Miller:

We have reviewed the Multiyear Implementation Plan Amendment #2 from Tangipahoa Parish submitted on June 21, 2018 and deemed complete on September 4, 2018. We find that the Tangipahoa Parish Multiyear Plan Amendment #2 is complete and appears to conform to the RESTORE Act and regulations. As of the date of this letter, Treasury accepts Tangipahoa Parish's Multiyear Plan Amendment #2 which includes the addition of one project (Manchac Landbridge (Rock Breakwater) Shoreline Protection Phase 2 Project), for \$491,871.00 of the funds available in Tangipahoa Parish's allocation in the Gulf Coast Restoration Trust Fund (Trust Fund). The Parish can begin to submit an application through GrantSolutions.gov for Direct Component funding to support the activity included in the accepted Multiyear Plan after all funding contributions become available to the parish. We encourage you to refer to the Direct Component Funding Opportunity Announcements and Standard and Program-Specific Terms and Conditions on Treasury's RESTORE Act website at <http://www.treasury.gov/services/restore-act/> as you prepare a grant application.

We will post all accepted Multiyear Plans on Treasury's RESTORE Act website. In addition, please post the amended Multiyear Plan on your Parish website and provide us with the web address so we can include the link on the Treasury RESTORE Act website.

Treasury's acceptance of this amended Multiyear Plan is not a final determination of the eligibility of activities, projects, and programs for Direct Component funding and does not bind Treasury to obligate funds from the Trust Fund. The Parish must submit an application for Direct Component funding separately through GrantSolutions.gov. Treasury will review the application to determine if the requested funding complies with the RESTORE Act and regulations, and Federal law and policies on grants. Applicants may submit applications only to seek funds already available for distribution from the Trust Fund, in accordance with allocations established under the statute.

In the future, whenever there is a material change in the Multiyear Plan, Tangipahoa Parish must follow the requirements for an initial Multiyear Plan, including those for public review and comment. For more information, see the RESTORE Act Direct Component Guidance on the RESTORE Act website.

We look forward to working with you. Please send any questions to restoreact@treasury.gov.

Sincerely,

Laurie McGilvray
Program Director
Office of Gulf Coast Restoration
