STERILIZATION PROVISIONS

By adopting an animal from TPAC and signing the Adoption & Sterilization Contract, you agree to have the animal spayed or neutered on or before the contract date specified as "Expiration Date." Extension or voiding of the "Expiration Date" are granted **IF AND ONLY IF a veterinary medical reason exists which necessitates an extension or voiding. Such a reason must be rendered by a licensed veterinarian and conveyed to Tangipahoa Parish Animal Control.** If the animal is a fertile adult female, it may be pregnant — pregnancy alone does not extend the expiration time stated on the Adoption & Sterilization Contract. In absence of other extenuating circumstances, the participating veterinarian will spay the animal by the time specified. If the animal is too young to be spayed at the time of adoption and becomes pregnant in the interim period, the animal must still be spayed in accordance with the Adoption & Sterilization Contract. **The Adoption & Sterilization Contract is a legally binding document in accordance with Louisiana Revised Statute 3:2472, which mandates sterilization for all animals adopted from shelters.**

I certify that I have read and that I understand the information above. I certify that information provided by me is true and I understand that false information may result in the nullification of this adoption. TPAC reserves the right to refuse an adoption. This completed application is the property of Tangipahoa Parish Animal Control.
