The site will use a self-administered nasal swab test that will allow those being tested to swab their own nose onsite when addressing the walk up test site, observed by a trained medical volunteer to ensure the sample is taken correctly, and drop the sealed sample into a container. Those being tested will need to wear a mask and social distance while standing in line at least 6 ft apart.

Verification of eligibility criteria, ID check and self-administered test. Please use social distancing at 6ft apart while approaching the walk-up testing site as a safety precaution.
