

TANGIPAHOA PARISH ANIMAL SERVICES

PET ADOPTION FORM

TANGIPAHOA PARISH ANIMAL SERVICES **DOES NOT** GUARANTEE THE HEALTH, TEMPERAMENT, BEHAVIOR, OR FUTURE SIZE OF ANY ADOPTED ANIMAL.

Although we screen animals for signs of ill health, behavioral problems, and can make some predictions regarding future size, unforeseen and undetected problems may arise after adoption.

The adopter is responsible for any fees, including veterinary expenses, incurred after adopting other than those included in the adoption fee.

Exchange for other animals is determined on case-by-case basis.

THE ADOPTION FEE IS NOT REFUNDABLE

ACKNOWLEDGEMENT

I hereby acknowledge that have read the above, understand and accept the terms and conditions.

Cats need to scratch/claw on things. In a shelter environment, it is difficult for us to determine if a cat claws inappropriately. If your cat will be allowed inside your house, will you be able to tolerate clawing furniture/other items?

Yes No

Declawing is the amputation of the cat's toes to the first joint. It is a major surgery. Like other amputees, declawed cats can have lingering pain/sensitivity after the amputation. They may experience "phantom pain" (pain in the absent body part). Declawing is permanent & not reversible. Most declawed cats adjust, but some develop problems, such as no longer using the litter box or biting. Are you planning to declaw your new cat?

Yes No

If you plan to declaw your cat, what will you do if the cat begins biting or stops using the litter box?

STERILIZATION PROVISIONS

By adopting an animal from TPAS and signing the Adoption & Sterilization Contract, you agree to have the animal spayed or neutered on or before the contract date specified as "Expiration Date." Extension or voiding of the "Expiration Date" are granted **IF AND ONLY IF a veterinary medical reason exists which necessitates an extension or voiding. Such a reason must be rendered by a licensed veterinarian and conveyed to Tangipahoa Parish Animal Services.** If the animal is a fertile adult female, it may be pregnant – pregnancy alone does not extend the expiration time stated on the Adoption & Sterilization Contract. In absence of other extenuating circumstances, the participating veterinarian will spay the animal by the time specified. If the animal is too young to be spayed at the time of adoption and becomes pregnant in the interim period, the animal must still be spayed in accordance with the Adoption & Sterilization Contract. **The Adoption & Sterilization Contract is a legally binding document in accordance with Louisiana Revised Statute 3:2472, which mandates sterilization for all animals adopted from shelters.**

I certify that I have read and that I understand the information above. I certify that information provided by me is true and I understand that false information may result in the nullification of this adoption. TPAS reserves the right to refuse an adoption. This completed application is the property of Tangipahoa Parish Animal Services.
